

THE PARTYVERSE  
**PROJECT**

# WELCOME TO PARTYVERSE

THE WORLD'S FIRST VIRTUAL KARAOKE PLATFORM  
TO LAUNCH ON ETHEREUM & BINANCE SMART CHAIN.

Step into stardom with us live or in our virtual karaoke club. Now children and adults of all ages, including celebrities, can party, sing and play games to earn passive income!

# About Us

We're officially partnered with All-Star Recording Parties located in Texas. A recording party is like karaoke except children and adults of all ages can sing any song and have it recorded by real record producers. Partygoers also have the option of starring in a music video. After the party they can share the song with family and friends online via social media! This is the first mobile karaoke recording business and will be franchised in every major city around the world. Partyverse is offering a platform where people can party or sing in our virtual karaoke club. We'll be introducing the very first sing-to-earn project in the crypto space. Our future utilities include p2e games, an NFT collection, a party swap function and eventually a launchpad for future projects. When people book a recording party and buy merchandise, a percentage of profits will go towards burning our token. In addition to the multiple ways for our investors to profit, a percentage of all buy and sell transactions will go towards helping the homeless with supplies and shelter along with assisting low-income families with school supplies!

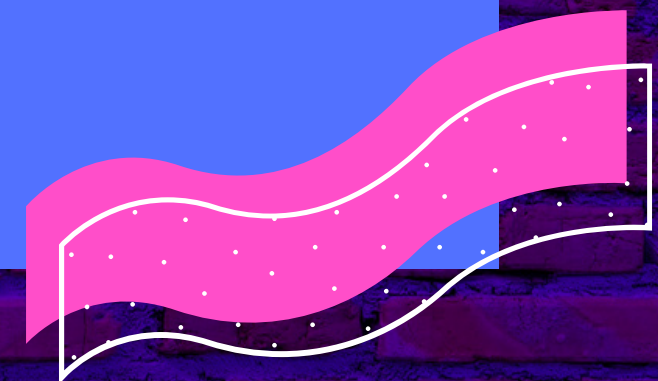

# Our Mission

**Don't go anywhere. We bring the party to you!**

Not everyone is able to travel to events for various reasons or can afford to pay for a venue. There are public and private schools continuously looking for ways to entertain their students without always having to take them on a field trip. Recording parties make it convenient and affordable for partygoers by providing mobile services for any event. If people want to hangout or sing with others while staying to themselves in the comfort of their own home then they can pick up their phone and enter the Partyverse. We also offer a safe space for celebrities to sell tickets, meet and interact with their fans, virtually. Let's get this party started!

# What We Do

Partyverse offers a real business model people rarely see in the crypto space. Our team specializes in marketing and we're very passionate about helping those in need.

## Recording Party

Get songs recorded by a record producer and star in a music video!

## Virtual Karaoke

Sing karaoke virtually to earn income no matter where you are!

## Charity Events

Help the homeless and low-income families who need assistance!

# Our Utilities

We plan to have multiple ways for people to earn with the Partyverse project. Buying tokens will be profitable in itself, but children and adults can earn passive income by singing, playing games, referring new investors to our project and by selling customized merchandise and NFTs. A percentage of all profits goes toward burning tokens.

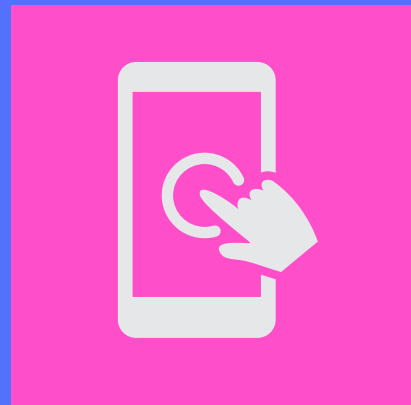

## Sing-to-Earn

Party, hangout or sing in our virtual karaoke club to earn passive income!

## Merch & NFTs

Buy or request custom merchandise and NFTs for personal use or business needs!

## Play-To-Earn

We'll have multiple p2e games for investors and partygoers to play!

## Party Burns

A portion of all profit from parties, NFTs and merchandise sells help burn party tokens!

- ✓ Free music video

What do investors think about us?

"I'm very bullish on the Partyverse project and believe it will be one of the small number of projects that will help me achieve financial freedom. I favor projects with low market caps, great leaders and communities, as well as superb utility. Partyverse has all of this."
